

Accelerated Reader (AR) is the most popular and successful reading product of all time. AR's advanced technology helps teachers and parents to:

- Make essential reading practice more effective for every student
- Personalize reading practice to each student's current level
- Manage reading activities
- Assess students' reading
- Build a lifelong love of reading and learning

How Accelerated Reader is implemented at TCS

Accelerated Reader is not an instructional program, but an enrichment program designed to help students improve their reading ability. At TCS, we stress the individuality of each student. Each student has an individual goal for every quarter. Students work at their own pace according to their individual diagnostic assessment. We emphasize reaching 100% of goal rather than points. In this way, every student can be 100% successful. The program reemphasizes the classroom reading instruction by providing reading practice. Our goal at TCS is for every student to become an independent reader and develop good reading habits which follow them into higher learning.

Parents can expect to see:

1. STAR test given three times each year
This diagnostic assessment is given at the beginning, middle, and end of the year to track the student's growth
2. Individual goal set for each quarter
3. Student will read books at the appropriate level as determined by their own diagnostic assessment (STAR)
4. After finishing a book, student will take a comprehension quiz
The student will be given immediate feedback on his/her progress
5. Parents will be given immediate feedback at home through Home Connect
6. Parents can expect an increase in student's reading level

Rewards and celebrations

1. Teachers will reward individual successes at the classroom level
2. Students reaching quarter goals are recognized in the Talon
3. Any class in which every student reaches 100% of their goal will be rewarded as a class
4. Students who reach their goals for both quarters in a semester will be able to participate in a celebration at the end of the semester
